

ESTIS COMPRESSION

WHAT IS HIGH PRESSURE GAS LIFT?

COME SEE FOR YOURSELF

ESTIS COMPRESSION HAS DEVELOPED AN INNOVATIVE COMPRESSOR SETUP THAT DELIVERS PRESSURES UP TO 4,000 PSI, MEANING YOU CAN INJECT HIGH PRESSURE GAS STRAIGHT DOWNHOLE – ENSURING PRODUCTION WITHOUT THE NEED FOR DOWNHOLE INTERVENTION.

TRADITIONAL GAS LIFT

Limited to 1,000 psi injection
Must use gas lift valves
Expensive downhole valve repairs

VS

HIGH PRESSURE GAS LIFT

No downhole intervention
3X the injection pressure
50% production uplift*
Reduces operating costs

JOIN US AT THE PERMIAN BASIN INTERNATIONAL OIL SHOW, BOOTH #OS737
Come early for breakfast tacos and coffee.
